

WHITE TOWEL RAGS

Recycled White Towelling | 10 kg bag

Product code: 8-40025

TIDDOX

Product overview

Recycled white towel rags are soft, absorbent cut pieces of used bath towels, hand towels, robes and bath mats. The thick terry fabric is suited to absorbing spills, drying equipment and wiping oil, grease and other compatible residues across commercial, industrial and professional workplaces.

Product specifications

Product code	8-40025
Brand	TIDDOX
Material	Recycled bath towels, hand towels, robes and bath mats; cotton-rich towelling
Colour	White / off-white; shade may vary
Sheet dimensions	Mixed cut towel pieces; dimensions vary
Pack format	10 kg bag
Pallet quantities	54 × 10 kg bags 36 × 15 kg bags
Packaging	Loose rags supplied in compressed bags
Metal detection	Metal-detection screened during processing

Key features

- | | |
|---|--|
| <ul style="list-style-type: none">• Highly absorbent terry towelling for water and compatible liquids.• Soft, substantial pieces for drying and general wiping.• White fabric makes collected dirt and residue visible. | <ul style="list-style-type: none">• Recycled textiles repurposed as cleaning rags.• Metal-detection screened during processing.• Loose pieces supplied in compressed 10 kg bags. |

Applications & Cleaning Tasks

Heavy liquid spill absorption

Absorbing water, coolant, oil and compatible cleaning fluids from suitable work surfaces and maintenance areas.

Oil, grease and machinery cleaning

Wiping grease, lubricants, hydraulic oil drips and machining residues from tools, machinery housings, guards, hoses and fittings.

Automotive, transport and fleet maintenance

Cleaning engine bays, vehicle components, service bays, trucks and fleet equipment; drying wheels, door jambs and robust exterior surfaces.

Manufacturing, engineering and metalworking

Wiping production equipment, fabrication benches, mechanical components and workshop tools; removing compatible coolants and process residues.

Marine and heavy equipment maintenance

Drying boat fittings and marine equipment; wiping earthmoving machinery, mining equipment and plant maintenance tools.

Commercial cleaning and facility maintenance

Wet wiping robust surfaces, attending to minor leaks, drying washed equipment and cleaning shared maintenance work areas.

Painting, printing and trade clean-up

Wiping compatible paint drips and ink residues, cleaning tools and absorbing suitable cleaning liquids during printing, decorating and construction work.

Plumbing, restoration and water clean-up

Absorbing residual water around pumps, valves and plumbing repairs; drying accessible surfaces and restoration equipment.

Surface inspection and equipment drying

Using the white cloth to see collected soil and residue while wiping surfaces, and drying washed tools, machinery and equipment parts.

Industries & Work Environments

• Automotive workshops • Commercial cleaning • Construction and trades • Engineering and fabrication	• Facilities management • Fleet maintenance • Manufacturing • Marine maintenance	• Mining maintenance • Painting and printing • Plumbing and restoration • Workshops

Use and compatibility notes

Cleaning-agent compatibility. Recycled towelling may shed lint and is not certified lint-free. Metal detection reduces metal contamination risk but does not guarantee freedom from all foreign objects.
